PROJECTS

Efficient Emergency Accident Detetction & Medical Assisstance
Built a project using Internet of Things(IOT) Arduino UNO microcontroller based on ATMEGA 328BP to efficiently reduce the amount of road accidents and providing optimum solution to the drawback.

Personal Portfolio *(https://github.com/nikhilsuresh400/ReactPortfolio)*
Designed & built a ReactJS portfolio showcasing my skills and tech-stack with dedicated feature which enables the user to download the CV.
I used ReactJS, TailwindCSS, Framer Motion to build the website. Integrated React Router to navigate to different pages.

Sundown Studio Clone
Cloned Sundown website using vanillaJS, swiperJS and gsap. Sundown is composed of an established team of multi-disciplinary craftsmen focused on creating unique, end-to-end experiences and environments. They are a group of design-driven, goal-focused creators, producers, and designers who believe that the details make all the difference.
